C 0850 165mm (6.5") Round 'Edge to Edge' 2-Way Ceiling Speaker Ideal for multi-channel or stereo use in high end domestic AV systems.

These Opus One® Platinum Plus series speakers feature high power woven carbon fibre woofers and magnetic fit 'edge to edge' low profile grille. The high power output is ideally suited to home cinema, music appreciation, in home sound systems. They are equally suited to commercial installs in small bars, cafes & function rooms. Powdercoated steel grille.

Opus One® Platinum Series 2-Way Stereo Speakers

These Opus One Platinum series speakers are designed for the discerning hi-fi and home theatre listener. The titanium dome tweeter, coupled with the woven carbon fibre woofer exhibit extended bass response and punchy, crisp midrange. The large vented magnet, oversized voicecoil and rubber rolled surround enable a very high power handling capability. A custom designed crossover, constructed from world class, premium components provides excellent sonic performance and clarity. Sound performance may be tailored using the built in bass and treble control switches ie. to suit the acoustics of the room or listeners preference. These are located behind the front grille and are accessed without removing the speaker from the ceiling. All models feature the Opus One® standard 'flip-lock' mounting system.
