

WL-11

Wireless Video Intercom

A Hassle-Free Video Intercom at Your Door

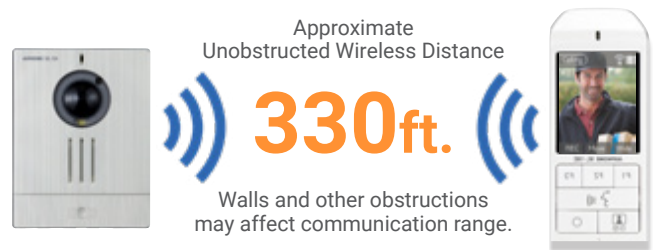

From Door Station ... to Master Station

Security and Convenience in One Package

The hassle-free WL-11 Wireless Video Intercom offers easy installation and operation for your residence. The WL-11 is DECT wireless, so no wiring is needed.

The 1.9 GHz band frequency enables you to receive calls from the door without interference from home appliances on other frequencies. The automatic recording feature also records 3 images per call, for up to 100 calls.

NEW
