TouchOne Mini
5" Code Pad for
Solution 2000/3000

The TouchOne Mini code pad is a high definition 5" touchscreen for the Bosch Solution 2000 & 3000 control panels that provides a rich graphical user interface and extended functionality.

Use the TouchOne Mini to:

- arm and disarm the panel
- bypass and rename zones
- maintain users including PINs and keyfobs
- control and rename outputs
- change the time and date
- connect to your local WiFi network to install apps, use the Intercom App (to communicate with a Video Door Station or another TouchOne Mini), and access automatic updating and diagnostics
- show a photo slideshow during Standby mode

Key Features:

▶ Provides a graphical interface to the major functions of a Solution 2000 or 3000 alarm panel

▶ View critical status information of the system and perform common actions from the Home Screen

▶ 1280 px x 720 px resolution (Landscape)

▶ MicroSD Card slot for adding photos or updating the device
