

ACDC Relay on Board

Technical Datasheet

Wiring Diagram:

Common relay contact
N.C. relay contact
N.O. relay contact
-12v DC or 16v AC
+12v DC or 16v AC

Application:

- To switch high voltage/current device from a low voltage/current trigger.

Specifications:

- 12v DC or 16v AC operation.
- Normally open and closed potential free relay contacts.
- Low current 20mA when energised.
- Switching current rating 10A@ 12v DC.
- LED indication.
- Reverse polarity protection.
- Back EMF protection.
- Physical size: 34mm x 29mm.

Installation

- Connect trigger voltage and load.
- Relay will energise when voltage is applied to trigger.
- LED indicates relay status.
