

2A battery charger PCB

Technical Datasheet

Wiring Diagram:

16v AC input
16v AC input
-13.8v + DC output

Application:

- Trickle charge 7a/h or 17a/h lead acid battery.

Specifications:

- 16v AC input.
- 13.8v DC output.
- Automatically charges 7a/h or 17a/h battery.
- Overcurrent protection.
- Aluminium heat sink.
- Physical size: 100mm x 64mm.

Installation

- Connect 16v AC.
- Connect 13.8v DC.
- RED LED's indicate voltage is present.
