

ENCLOSURES

Protection against vandalism and weathering

features:

- ▶ weather proof
- ▶ vandal resistant
- ▶ anti-rust materials
- ▶ powder-coated zinc-plated mild steel
- ▶ stainless steel *(optional)*
- ▶ security mounting screws
- ▶ easy-clean surface
- ▶ spring loaded hinge
- ▶ magnetic latching door
- ▶ cable entry knock-outs
- ▶ pole mounting option

versatile

easy to use

durable

dependable

The **Weather Proof Enclosure** is designed to suit many of our vast range of telecommunication products.

The **Guard, Sentry, Sentinel, CST** and **GSM** products, were designed to be recessed into a cavity. so they end up flush mounted and therefore less subject to wanton damage.

In instances where this is not possible and surface mounting is the only solution, we have a number of **Enclosures** to suit these products to allow secure surface mounting which use solid anchoring fasteners such as **Dynabolts** or **Locksins**.

We have also designed a series of **WeatherShield enclosures** for externally mounting these products and protect them from even the most unpredictable weather.

weather proof enclosure:

hands-free telephone

handset telephone

material: 1.6mm zinc-plated mild steel 304 non rusting stainless steel *(optional)*

coating: ripple powder coating durable and easy to clean

colour: space blue other colours on request

protection: IP45

dimensions: height: 300.0mm width: 200.0mm depth: 145.0mm

ENCLOSURES

horizontal:

stainless steel enclosure
model: ENCDSSSH
height: 133.0mm
width: 275.0mm
depth: 85.0mm

powder-coated enclosure
model: ENCDSPCH
height: 133.0mm
width: 275.0mm
depth: 85.0mm

acrylic weather-shield enclosure
model: ENCDSACH
height: 150.0mm
width: 298.0mm
depth: 110.0mm

a stainless steel enclosure mounted inside an acrylic weather-shield

vertical:

stainless steel enclosure
model: ENCDSSSV
height: 275.0mm
width: 133.0mm
depth: 85.0mm

powder-coated enclosure
model: ENCDSPCV
height: 275.0mm
width: 133.0mm
depth: 85.0mm

acrylic weather-shield enclosure
model: ENCDSACV
height: 286.0mm
width: 158.0mm
depth: 110.0mm

a stainless steel enclosure mounted inside an acrylic weather-shield

CST enclosure:

stainless steel CST enclosure
model: ENCCSTSS
height: 330.0mm
width: 240.0mm
depth: 130.0mm

designed specifically for our CST range of telephones to allow easy surface mounting.

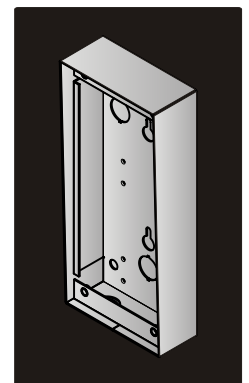

flush-mount wall box:

steel flush-mount wall box
horizontal or vertical
model: ENCDSWB
height: 262.0mm
width: 122.0mm
depth: 47.0mm

designed to suit the recessed Sentry and Sentinel products, it is mounted into a hard cavity and fixed in place so that the telephone unit can then be mounted to it.

guard enclosure:

stainless steel guard enclosure
model: ENCGRDSSV
height: 225.0mm
width: 100.0mm
depth: 45.0mm

designed specifically for our Guard range of telephones to allow easy surface mounting and cable entry knock-outs for convenient wiring.
