DATAMASTER

ACCESS COMMUNICATIONS PTY LTD

CAT6 UTP Slim Patch Cable
W26XX

▨ FEATURES

- All Datamaster® network patch cables are Fluke® tested and exceed Australian standards.
- ISO/IEC 11801 Category 6 and TIA/EIA-568-C.2 Category 6 compliant.
- Supports performance up to 250MHz. Suitable for Fast Ethernet, Gigabit Ethernet and other network protocols.
- Backward compatible with Cat5e, Cat5 and Cat3 standards.
- Ultra-slim 3.6mm diameter, approximately 40% smaller than standard patch cables.
- Bend radius of 22 to 24mm for improved flexibility in tight spaces.
- Slim profile enhances airflow in crowded server racks and cabinets.
- Ideal for use where space is restricted.
- Made with 100% oxygen-free copper for high-quality performance.
- LSZH (Low Smoke Zero Halogen) jacket for safer installations.
- Unshielded Twisted Pair (UTP) construction with 4 twisted pairs and 8 multi-strand conductors.
- Wired to T568A colour code.
- RJ45 to RJ45 connectors with high-quality injection-moulded strain relief.
- 50µm gold-plated contacts with Category 6 compliant 2-row staggered pin plug.
- Snagless boots for easier cable handling and reduced snagging.
- Supplied in Datamaster® hang-cell packaging.
- POE++ compatible.
- Backed by our exclusive limited lifetime warranty.
- Custom-made cables available, including specific lengths, colours and customer-branded printing. Contact us to discuss your needs.
