

LG10

Lock guard

- Ideally suited for use with rose or escutcheon 2 3/4" wide or less
- For use with type 86 mortise and type 161 cylindrical locks (ANSI/BHMA 156.13 Series 1000 and ANSI/BHMA 156.2 Series 4000)
- Unique design provides maximum security, virtually eliminating the opening between door and frame at the latch point
- Non-handed
- 2 welded mounting studs. No exposed fasteners on face of unit
