# Paradigm® Pull Handle Lockset - Deadlatch

Interior View - Single Cylinder Shown

The Australian designed Paradigm® Pull Handle Lockset expresses superior state-of-the art design featuring a contemporary style that delivers exceptional safety and security. The Paradigm® Pull Handle latching lockset is available in single and double cylinder variants.

Both variants are specifically designed for semi-commercial and apartment building applications. The locksets have been successfully tested up to 2 hours (depending on the type of doorset) on fire assemblies in accordance with Australian Standard AS1905.1-2005, part 1:Fire Resistant Doorset.

The Pull Handle lockset applies the innovative safety features from the Paradigm 005 Deadbolt into a latching lockset and is manufactured with high end 304 grade stainless steel that comes in a brushed satin finish.

Key Features

- High security cut resistant Stainless Steel latch

- Brushed 304 grade Stainless Steel Pull Handle

- Concealed screw fixings for a neat and clean appearance

- Safety Release™ automatically unlocks internal knob upon key entry from outside*

- LockAlert® indicator shows lock status at a glance*

*Only available in double cylinder variant

Restricted Special Keying

Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please refer to Lockwood Keying Catalogue or contact your local sales office or customer service for specific information.
