

PROVE

PSK2 Keypad

The PSK2 (Prove Standard Keypad) is for use in indoor access control applications. Intended for sites where two part keypad security is desired, but weather and vandal resistance are of lower priority.

- ▶ Uses Presco data format, capable of utilising low cost, non-shielded cable while communicating up to 1 kilometer from the door controller (power supply and cable dependent)
- ▶ Compatible with Presco and Prescient access controllers
- ▶ Audio and visual feedback for all inputs
- ▶ Tactile membrane with raised buttons, built for longevity

126mm x 80mm x 17.5mm
23 mA. Max. 0.3 mA in standby
7 to 15 Volts D.C. current limited to 23 mA
(supplied by controller)
Operating Temperature: 0°C to 70°C

Suitable for domestic and commercial use

19 million possible combinations

Locator pip for visually impaired

Compatible with Presco and Prescient controllers
