

PA-DBC01

Debris collector

SPECIFICATION

Model: PA-DBC01

Product Overview

The PA-Debris Collector is a smart accessory designed to minimize mess during hole saw drilling. With no need for post-drill cleanup, it forms a sealed catchment zone that collects dust and debris as you work. Ideal for keeping workspaces clean and drill motors protected.

Key Features

- Mess-Free Operation: Seals around the cutting surface to trap dust and debris
- Flexible Bowl: Adapts to surface pressure during sawing
- Time Saver: Eliminates cleanup and keeps airways/motors clear
- Universal Fit: Supports a range of common hole saw types and thread sizes

Compatible Hole Saws	FCH, DCH, MPH, TCT Multi-Purpose, CT & Diamond	
Compatible Threads	1/2" x 20 and 5/8" x 18	
Maximum hole saw diameter	120mm	
Pack Format	Blister Pack	18 units/Ctn.
Number of Parts	One	
Material	Semi Transparent	
Body Material	Silicone /Nylon	

Applications

- Electrical, plumbing, and HVAC installations
- Indoor drilling on walls, ceilings, or cabinetry
- Clean environments like hospitals, labs, and offices
