

Specification Statements FSH Products

1. Electro Magnetic Gate Lock FEM5000G Weather Resistant Holding Force 630kg monitored

The Electro Magnetic Gate Lock must be equal to FSH model FEM5000G in all respects. Have a holding force of up to 630kg, being weather resistant IP67 with a stainless steel body housing. The device must be provided with a dual fixing arrangement, a built-in varistor surge protection and accept both 12 and 24VDC. The Electro Magnetic Gate Lock shall also provide the monitoring feature "Lock Status Sensor" by Hall-Effect (LSS). The Electro Magnetic Gate Lock must be provided with a lifetime warranty and supplied with an Anti-Tamper-Plate as standard, to prevent hostile attacks on the dome-nut-fixing bolt of the Armature Plate."
