PRODUCT FEATURES

Pre-programmed 'plug and play' design No need for an electrician or lengthy setup

98% efficient while on mains Up to 24 hours battery back up Fast battery recharge time

Remote mains fail alarms (optional)

Automatic voltage regulation with surge protection

Manufactured to customer's specifications

MediX-2 models: Standard fridges running on a 10A input plug (0-5 Degrees C)

HOW TO CHOOSE WHAT MEDI-X IS RIGHT FOR YOUR APPLICATION

- MediX-3 models: Ultra-low freezers consuming over 4A (1000W) standard fridges can also operate on the MediX-3 range
- Inrush current/max current must be below 9A on all fridges/freezers
- To calculate a specific fridge contact PSS Distributors

Communication Accessories

SW012
SNMP Card - Remote monitoring and access to UPS via assigned IP address.

SW013
Relay Card - Trigger voltage free contracts to reflect UPS events and status.

MEDI - X UPS FOR MEDICAL FRIDGES

MEDI-X LL (LONG LIFE) BATTERIES

Our Long Life (LL) batteries are 10-year design life, specifically designed to protect critical loads with a longer life span. The LL batteries are suitable and the best option for the medical field and remote installations for critical sites.
