

Patriot Fuse

12VDC/24VDC

Features

- Eight self-healing fused outputs with status LED and battery backup
- Fits easily into any W-DC 12/24V Patriot power supply
- UP to 4 hours battery backup
- Selectable outputs – fire power or standard power
- NO/NC selectable dry contact interface outputs
- Fire alarm monitoring output
- Dry contact, 12 or 24VDC fire trip input
- Unfused auxiliary output for expansion
- DIN rail mount

Applications

- Fused power distribution for all security devices
- Fused over current protection
- Automated emergency fire trip door override
- Fire alarm monitoring output
- Fire trip interface to automatic doors and other devices

Specifications

Model	PATFUSE
Input voltage range	0-28V DC
Battery backup	12 or 24V - selectable
Max. output current	16A
Max. constant current per output	2A
Outputs	8
Fuse type	2A Self-healing PTC
Mounting	DIN or in any W-DC 12-24V Patriot power supply
Dimensions (HxWxD)	30x133x100mm
