

# Wireless DT AM Outdoor Curtain Detector

## Keeping the intruder outside!

### The best Outdoor Curtain Detector – Security System's first line of defence!

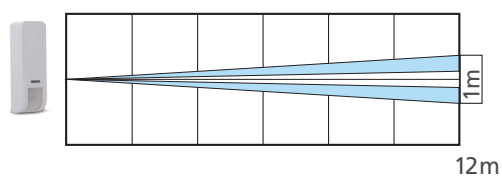

RISCO's Wireless DT AM Outdoor Curtain detector, is a fully integral part of RISCO's extensive outdoor detection offering.

The Outdoor Curtain Wireless is designed for fast and easy installation and flexible mounting on the wall or with an integral 90° bracket. PIR and microwave sensitivity can be adjusted comfortably from the Keypad or via CS.

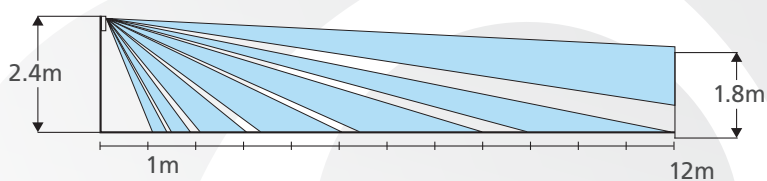

- ➔ **Advanced capabilities** featuring dual technology with K-Band Microwave, for enhanced, unmatched catch performance and Active IR Anti-Mask providing protection against any attempts to harm the detection capability.
- ➔ **Fully Integrated with all RISCO panels** – enjoy a holistic RISCO solution with comprehensive Status and Diagnostics (Alarm, AntiMask, Tamper, Low battery etc).
- ➔ **Remote configuration and diagnostics** for swift, efficient servicing - reducing unnecessary service trips while saving time and valuable resources.

## Technical Specifications

Coverage	Up to 12m, 5°
Mounting Height	1.8 – 3.0 m
Detection sensors	Dual Element PIR + K-Band Microwave
Anti-Mask detection method	Active-IR
Tamper	Wall & Cover
Battery Type	1x CR123A
Typical Battery life	At least 2 years
Current Consumption	20 mA (standby)
Direct Sunlight Immunity	Yes
RF Immunity: 10MHz to 3GHz According to EN50130-4	Yes
Operating Temperature	-20°C to 60°C
Environmental Rating	IP 65
Dimensions	124 x 35 x 42 mm 124 x 44 x 49 mm with bracket
Frequencies	868Mhz and 433Mhz

## Supported by

- Agility/WiComm/ WiComm pro – from version 5.15
- LightSYS from version 5.80
- ProSYS Plus from version 1.2.1.17

## Ordering information

PN	Description
RWX107DT800A	WL Outdoor DT Curtain 868MHz
RWX107DT400A	WL Outdoor DT Curtain 433MHz
