# 4Cabling 5RU H1090mm x D250mm Vertical Wall Mount

# Cabinet Rack

4Cabling's 5RU Vertical Wall Mount Cabinet is designed to save you space. Perfect for small network equipment and limited space networking environments, the low profile of the cabinet allows your equipment to be mounted vertically anywhere from comms rooms to retail stores, classrooms, and offices. Anywhere that requires a smaller footprint and security. The cabinet sits 250mm from the wall when mounted and will house 19" networking equipment with a depth up to 940mm, UPS systems, battery packs, network switches, and patch panels. In addition to 5RU of rack space in the primary mounting area, there is also an adjustable 2RU mounting bracket at the top of the cabinet for patch panels.

## FEATURES
