

TANE SQZMAG-1840

Magnet Size: 1.811"x1.622"x.5"
(46mmx41.2mmx12.7mm)

Colors: White

INSTALLATION INSTRUCTIONS

1. The TANE SQZMAG-1840 magnet is designed to be installed in the recessed channel, located at the top of a metal entry/exit door.
2. The magnet can be squeezed to fit into the channel.
3. We recommend cleaning the channel before installing the magnet.
4. Install the magnet in a position opposite the switch.
5. Applying a silicone adhesive to the magnet will protect the magnet from moisture, dirt and dislocation.
